

# a powerful course for all contemporary natural healthcare practitioners

## **During this 16 hour Part 2 course you will learn:**

- Counselling strategies
- The client interview
- Diagnosis
- Planning a Flower Essence treatment and prioritising
- Prescribing for client right now
- Compliance
- Follow up treatments
- Ready-made combinations
- Naturopathic principles
- A deepening of your understanding of mind-body medicine

Within this accessible course, you will learn to interview, assess, diagnose, prescribe and treat an extraordinary cross section of presenting causal issues with ongoing supportive and counselling strategies.

Includes full and comprehensive student handouts and case histories, and opportunities to discuss and practise these skills in class.

**It will liberate a further array of options in flower essence therapy to add to and enhance what you learned in Part 1.**

**This is a “must do” opportunity!!**
